

Creating a Quiz with Multiple Question Types

- All Questions in a Quiz may be the same type or a mix of types: True/False, multiple choice, or essay.
 - When you choose "add a new question," you pick the question type. Choose TRUE/FALSE
 - On the next question "add a new question," you can choose the same True /False or you could choose matching or essay
- The following screens show what a mixed type quiz would look like:
