1. This question is a True False question as indicated by the( . . ) in front of question
2. Add more questions by selecting Add. Questions can vary in type
3. The assignment is valued at at maximum 100.
4. The 1.00 next to the question is the multiplier...all questions should say 1.00 (default), unless you want a question to have twice the value of the others, then you would put 2.00.
5. You may select shuffle if shuffled questions are desired. These would shuffle so that individual testers questions would be in differing order
